Re: Municipal Water Connection

Dear Sir or Madam,

The Town of Batavia has recently completed the installation of the water main located on Darien Alexander Townline Road. We would like to advise the residents on Darien Alexander Townline Road that they are now able to connect to the water main.

To connect to the water main please be sure to do the following, if you have not already:

1. Complete the Town of Batavia water application and return it to our office located at 3833 West Main Street Road, Batavia for approval
2. Your application will be reviewed by the Town of Batavia Water/Wastewater Department
3. The Owner will be contacted once the application has been approved.
4. You or your contractor may install the water service in accordance with the approved service application and the Town of Batavia standard service handouts
5. Contact the Water/Wastewater Department at 585-356-4900 to schedule an inspection.
6. You will be informed at the time of the inspection when your service will become live.

If you have any questions or concerns, please feel free to contact us at 585-343-1729.

Sincerely,

Sandy Baubie
